JUN

2022

ICEF is an opportunity to identify, showcase, and celebrate Circular initiatives across India in different focus sectors. The forum features a futuristic approach for stakeholders to build and scale a circular economy by providing a platform to share insights, network, and learn from other circular economy practitioners.

Collaboration across companies and industry sectors is the only option to build a safe and resilient world. ICEF is a forum driven by national & global experts illustrating how circularity in businesses can prove to be a sound strategy, to facilitate access to new markets, drive innovative solutions and save costs.
